

Variations autour de la SALADE DE FRUITS

- Photocopier les fruits des pages suivantes sur du papier de couleur.
- Découper les fruits (à réaliser le cas échéant par un adulte selon l'âge des enfants).
- Coller les fruits sur une feuille blanche en les faisant se chevaucher. On ne doit plus voir la feuille du fond, les fruits peuvent dépasser, on les coupera par la suite.

Variante : on pourra, avec les plus grands, réaliser des motifs, des frises, des portraits à la façon d'Arcimboldo, etc...

La Grande Lessive.

Par Nathalie le 31 mars - Journal de classe

Nous avons participé à cet événement mondial qui consiste à accrocher des œuvres éphémères sur des fils. Dans le cadre de notre projet sur les fruits, nous avons fait une salade de fruits puis, comme Pop le dinosaure, nous sommes devenus multicolores en prenant la couleur de chaque fruit que nous mangions.

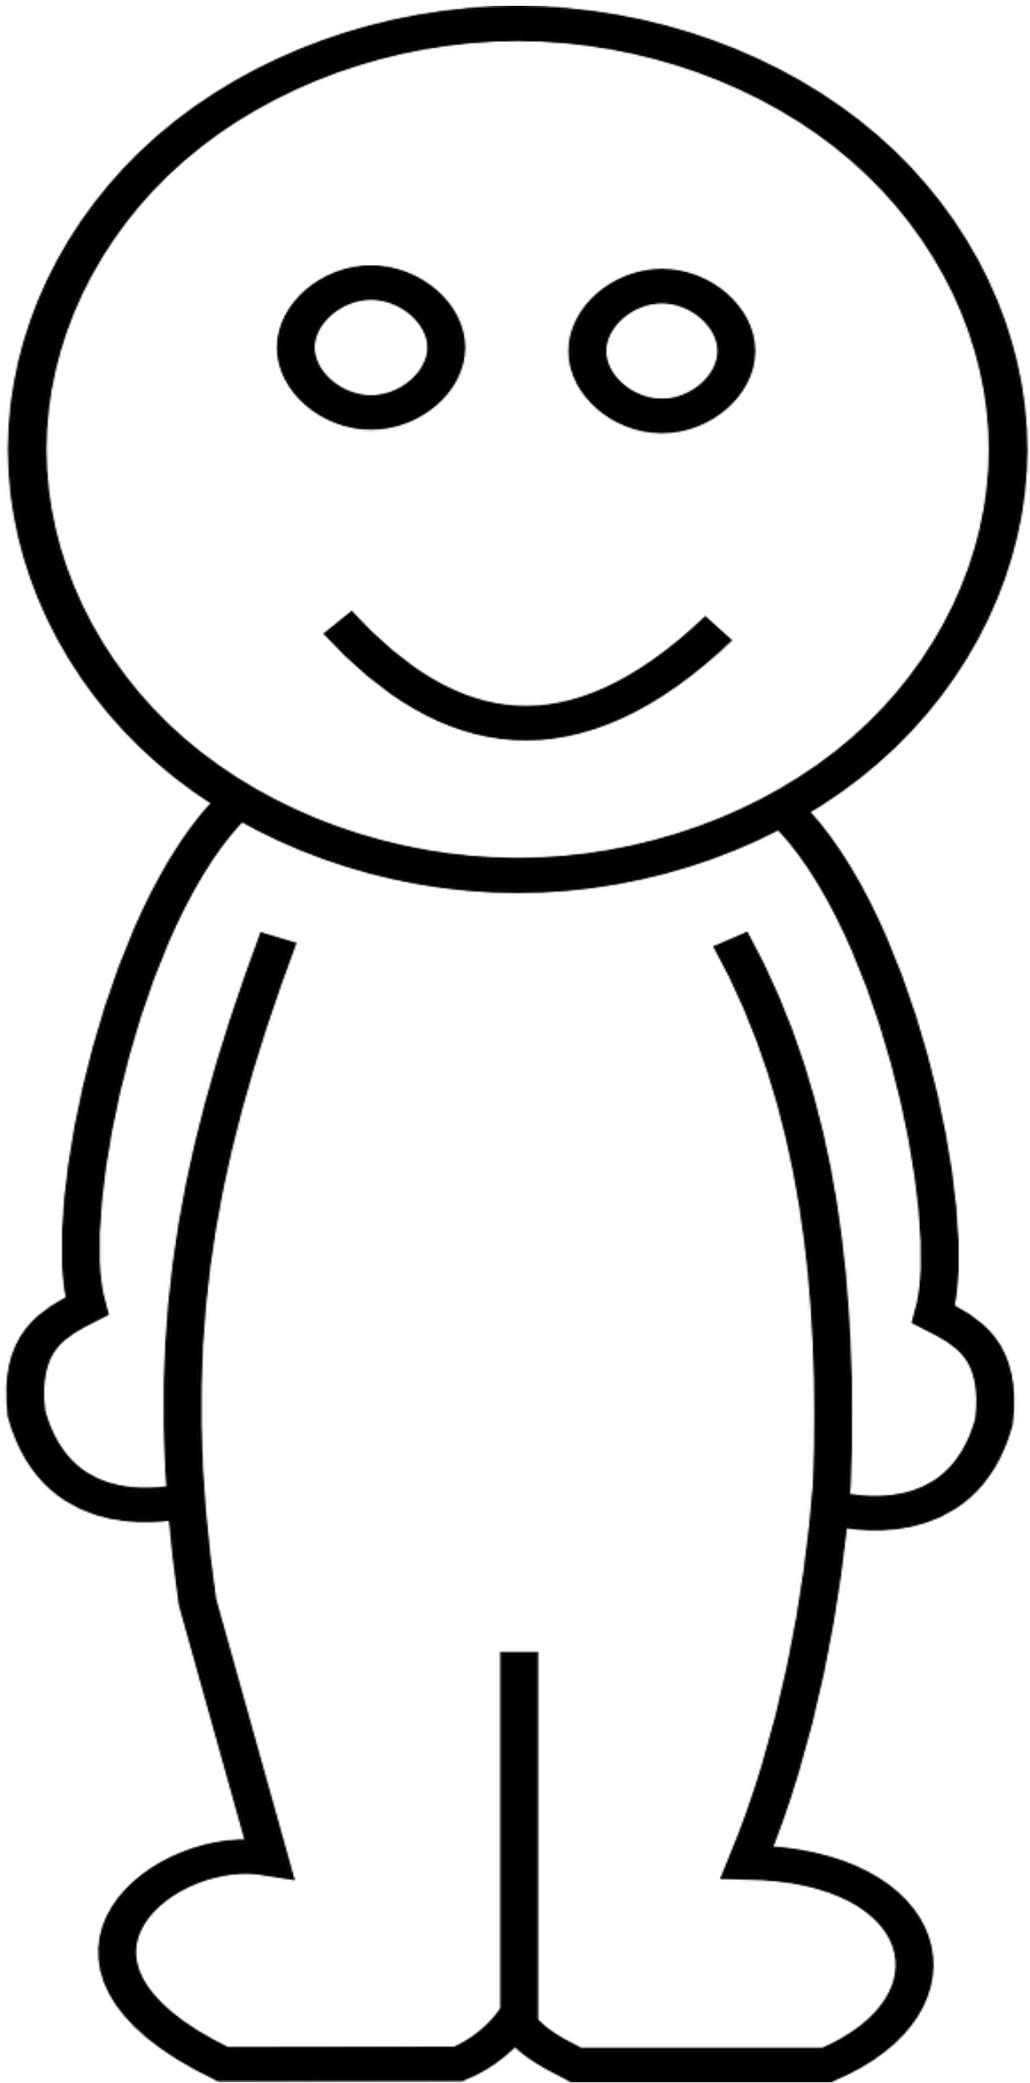

Et pour carnaval :

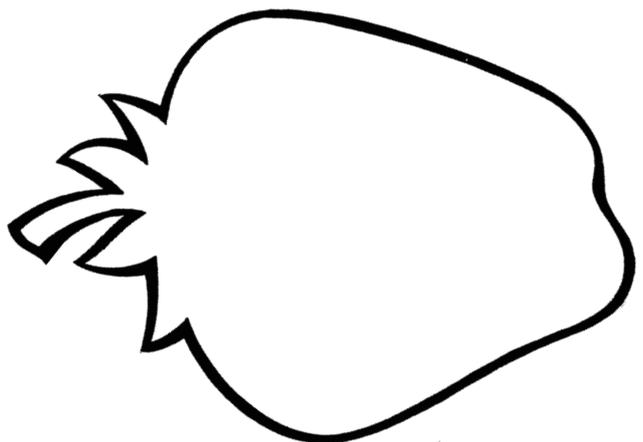

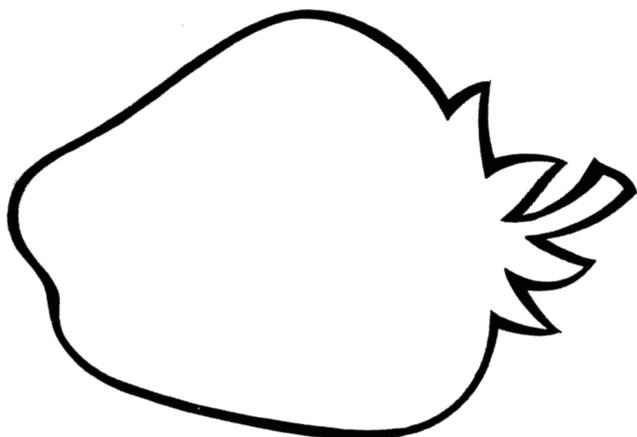

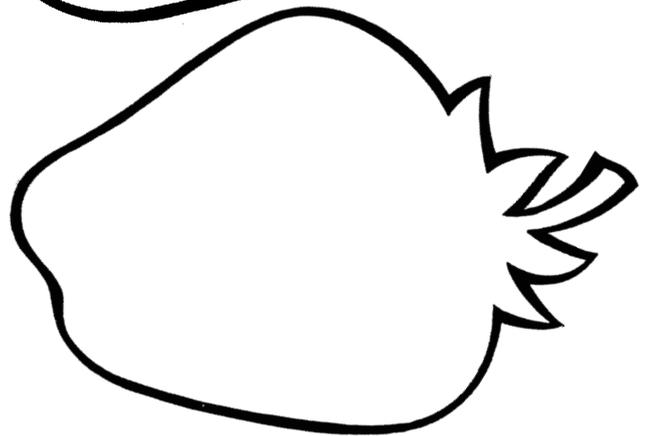

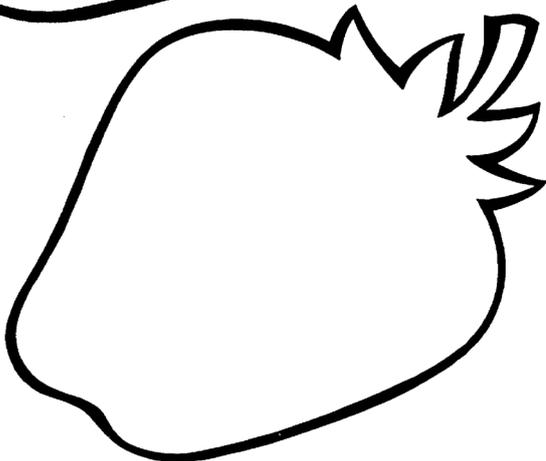

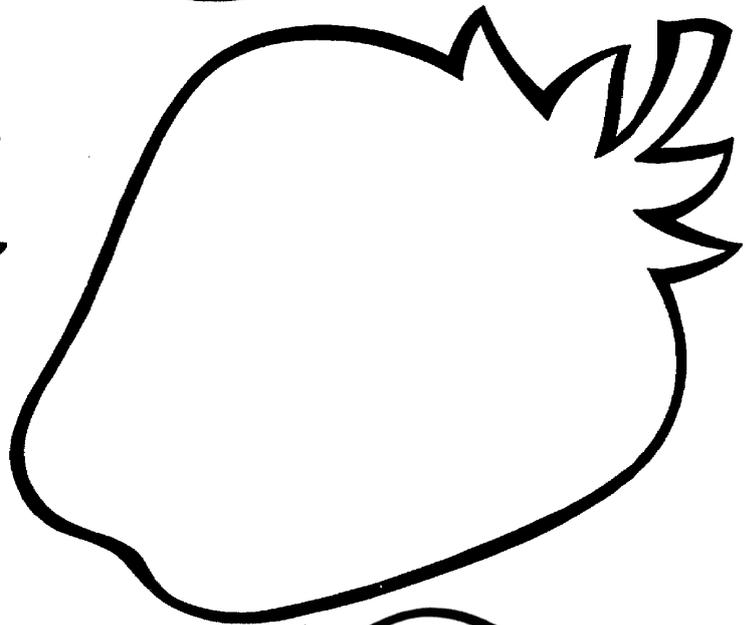

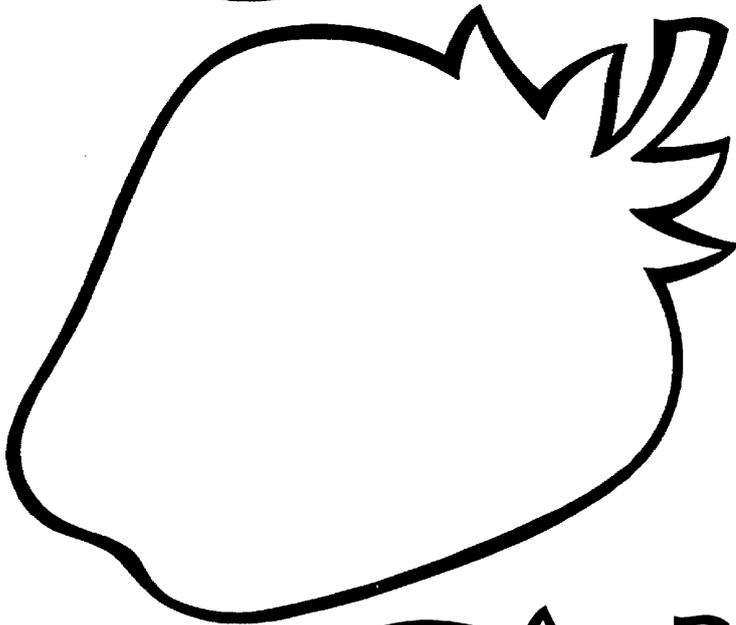

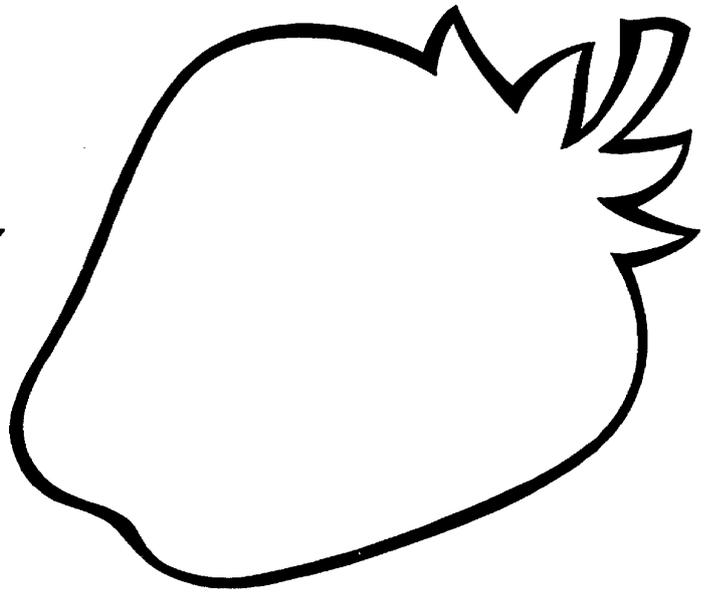

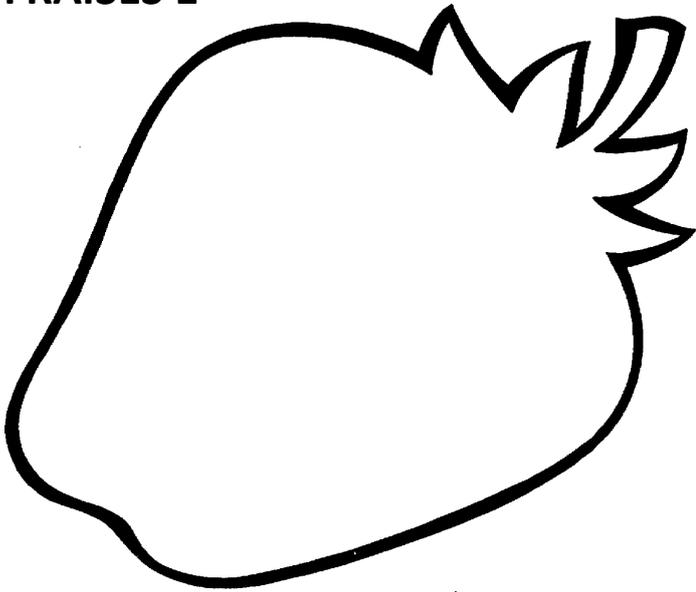

- Fruits en carton au bout d'une chenille, fixés sur un serre-tête en carton.
- Poncho et ceinture en papier crépon.
- Fruit en carton fixé au bout d'une baguette.

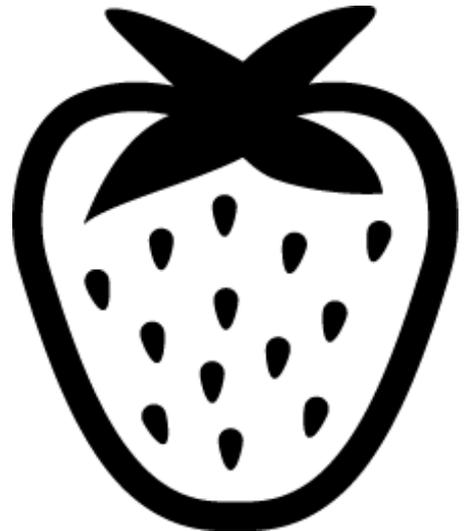

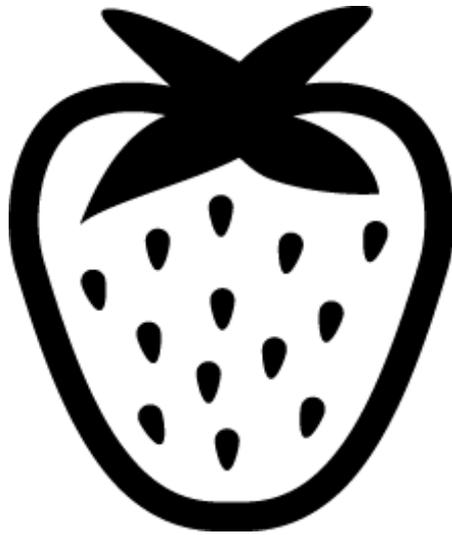

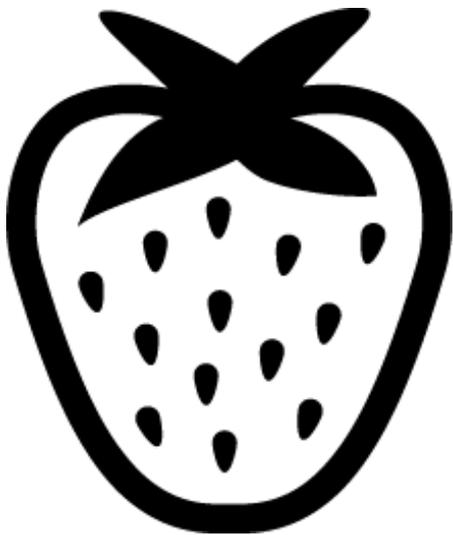

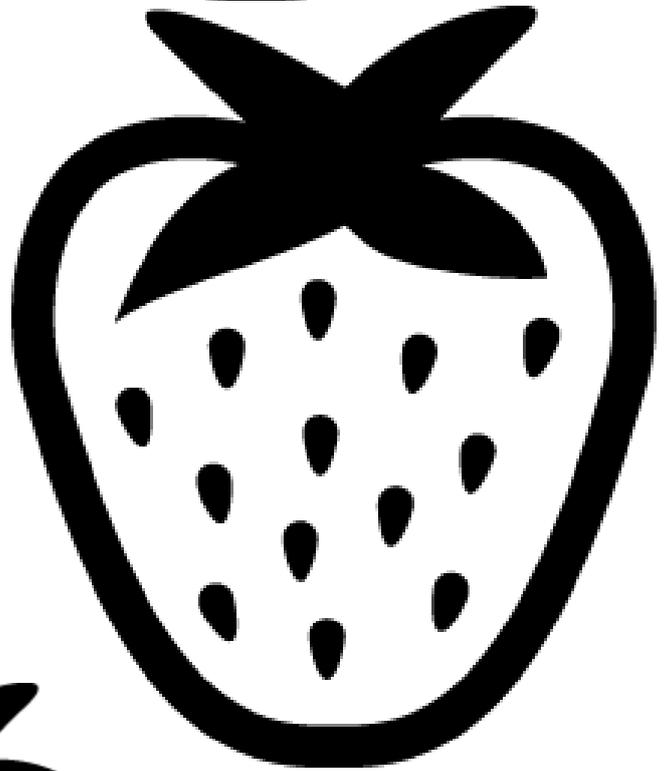

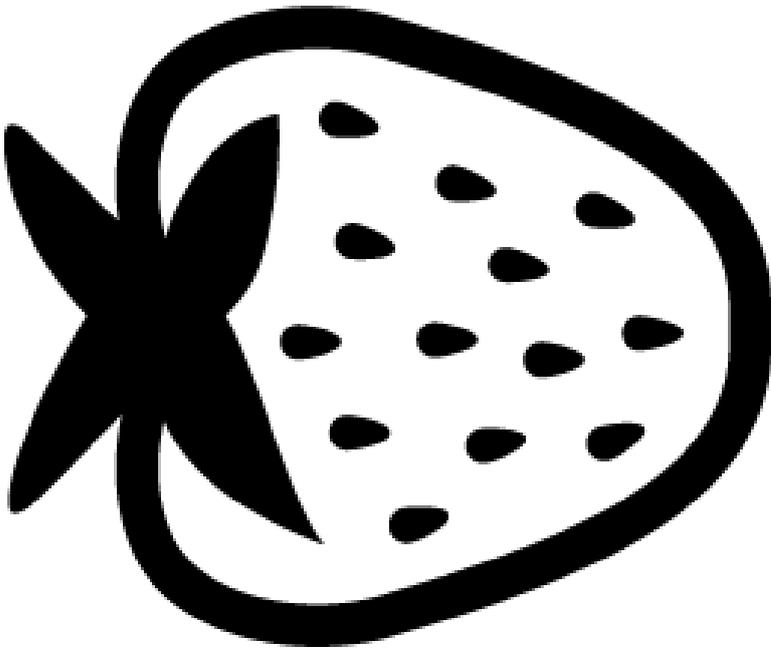

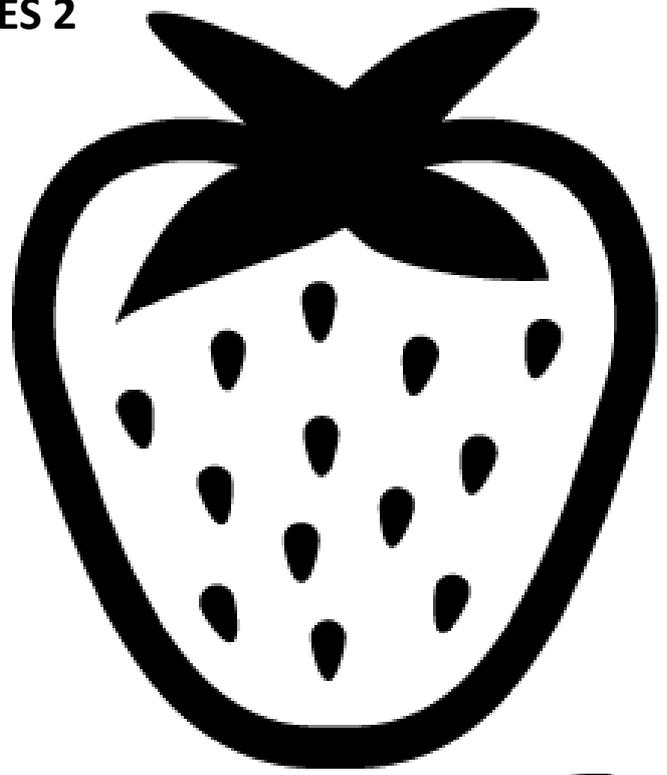

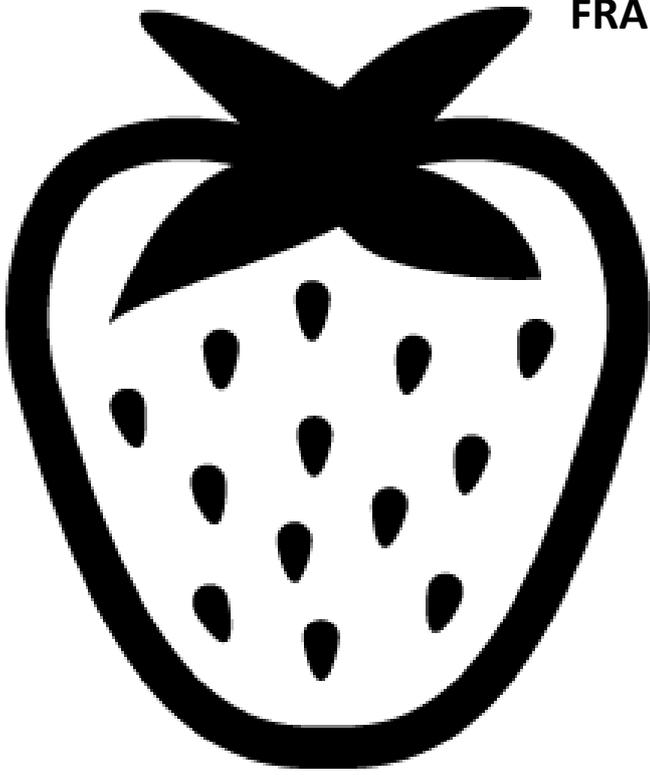

On peut aussi ajouter une collerette de papier crépon.
