

GALETTES VIERGES

Séries de cartes à colorier pour fabriquer des jeux avec les enfants.

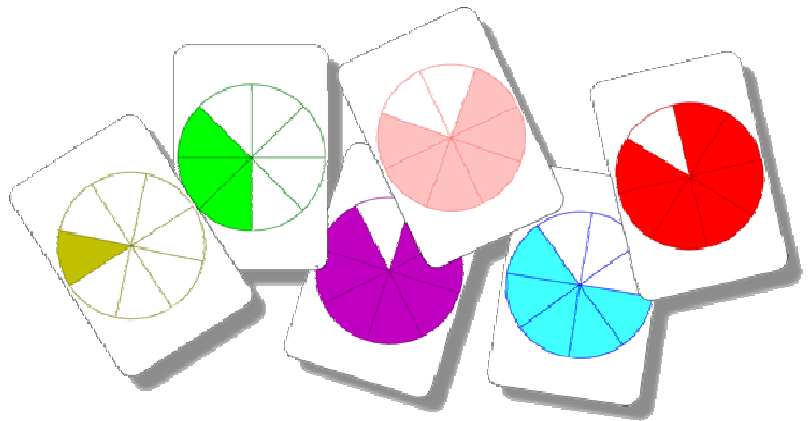

Exemple 1 : jeu de bataille

Toutes les cartes sont distribuées aux joueurs, faces cachées.

Les joueurs retournent en même temps la première carte de leur paquet. Celui qui est le plus gourmand (qui a donc **le moins** de parts "pleines" sur sa galette, remporte les cartes retournées !

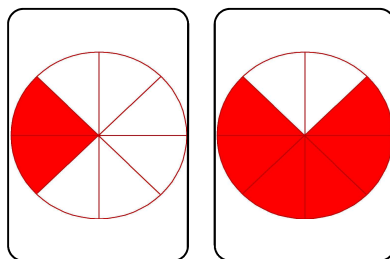

Si deux galettes ont le même nombre de parts, il y a « **bataille de galettes (ou de gourmands)** », les joueurs retournent alors une deuxième, voire une troisième carte...

D'autres variantes sont possibles, on peut décider que c'est celui qui a le plus de parts de galettes qui remporte la manche.

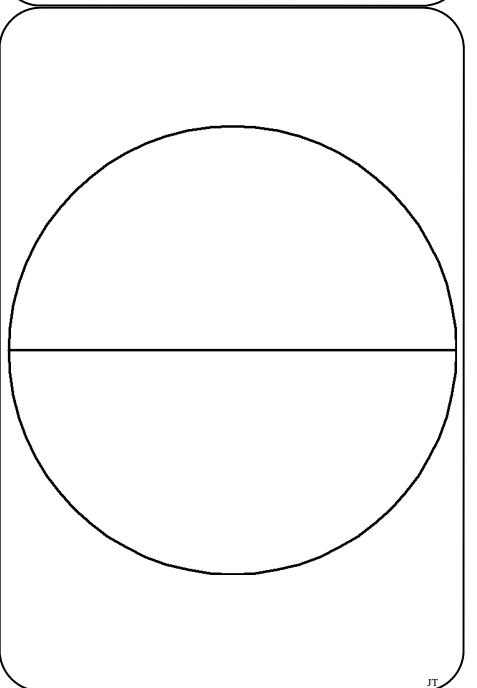

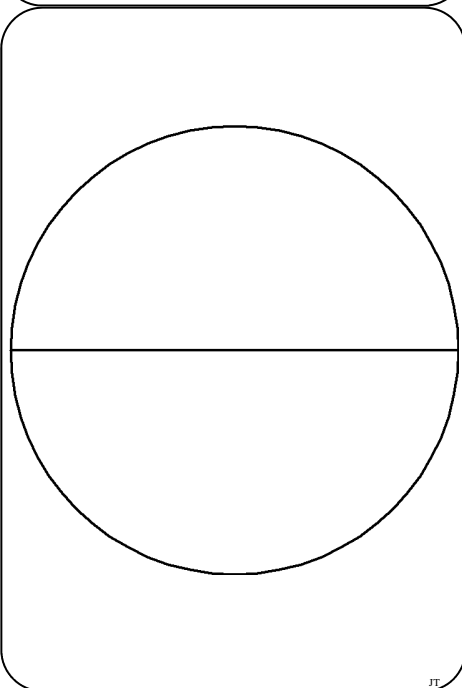

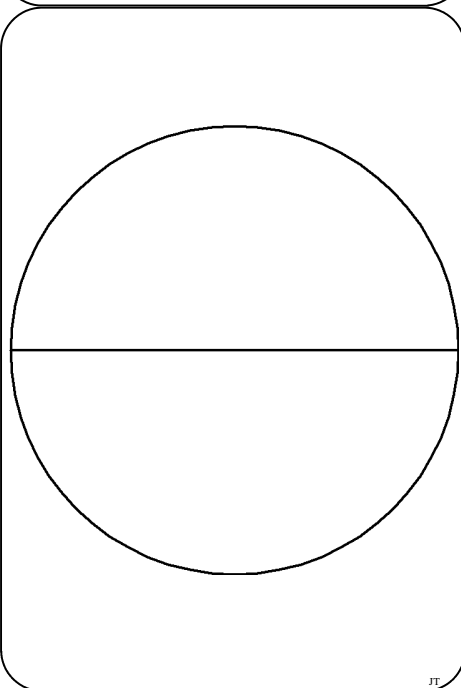

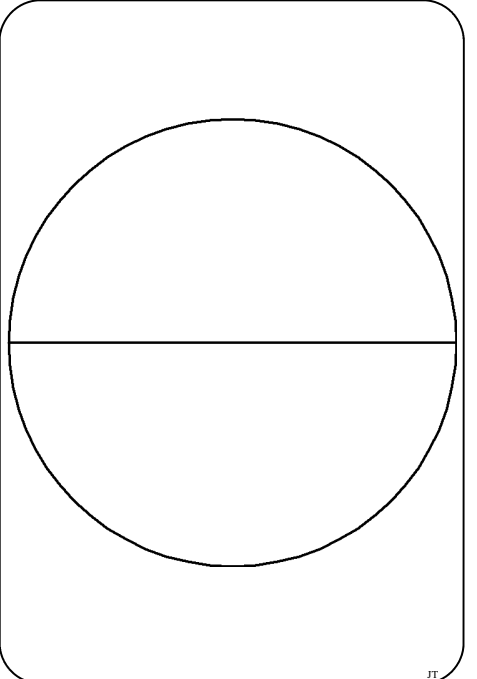

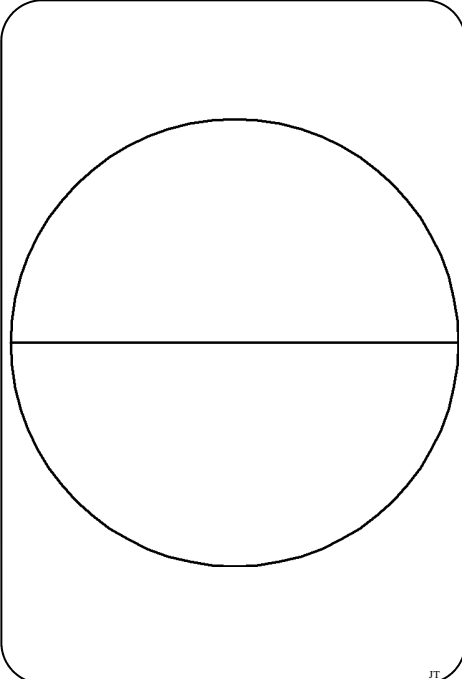

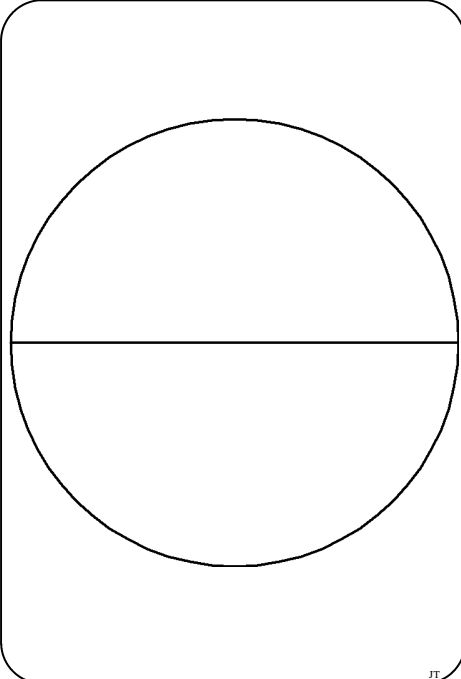

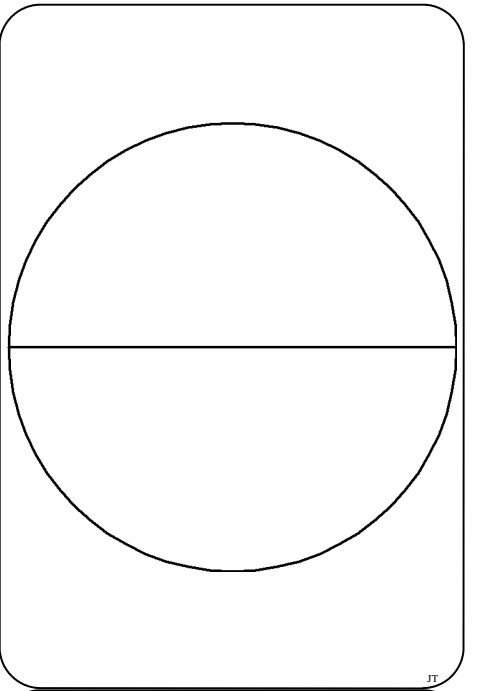

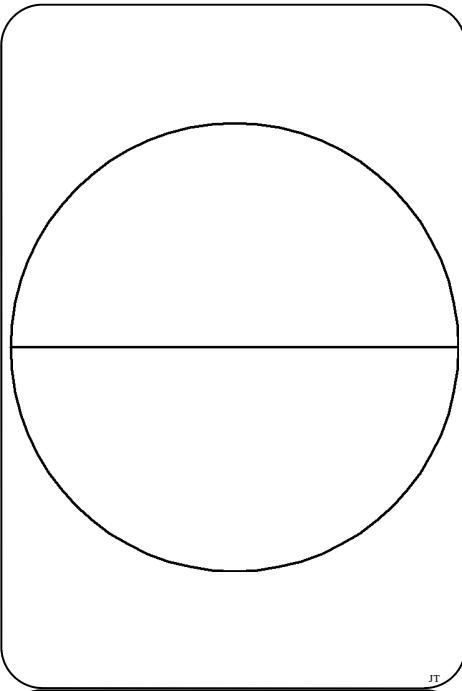

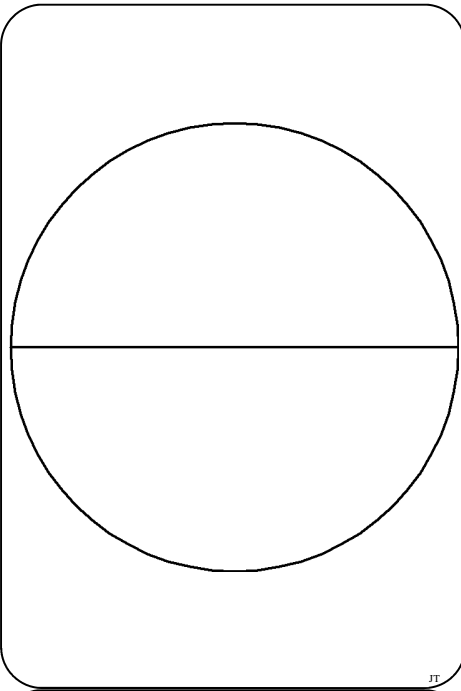

Exemple 2 : décomposition du nombre :

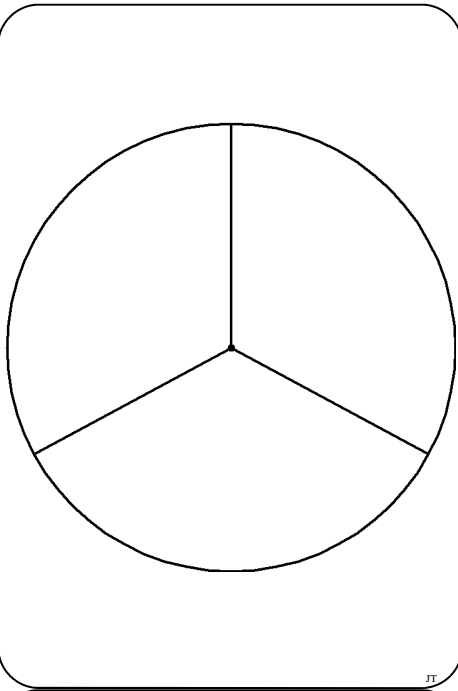

Autre possibilité, à la manière du jeu de sept familles, chaque joueur essaie de reconstituer une galette complète en demandant, à tour de rôle, une carte précise à un joueur adverse (exemple : "je demande à Manon la carte avec 2 parts de galette rouge"). Lorsque la galette complète est reconstituée, il pose la paire de cartes devant lui :
